PRAISE FOR TEEN HEALTH & WELLNESS, POSTED ON LM_NET (LIBRARY MEDIA NETWORK)

Rosen Publishing has definitely set the standard for interactive databases that provide up-to-date information for kids on topics that demand answers. Teen Health & Wellness was the FIRST of its kind to address the issues that teens have in every area of physical health and wellness. ...

Other databases might provide you with information, but Teen Health & Wellness steps forward and addresses the students' needs with sound advice and direct connections with people on the "other side" who help to answer questions on everything from acne to birth control—and encourage students to talk with trusted adults on those big issues, as well as providing support for those issues that we've all faced.

One of the nice surprises that I found when I purchased this database was when I introduced **Teen Health & Wellness to our school's nurses and counselors and they ALL LOVED IT! ... In summary: It's the best thing out there since sliced bread!**

—*Shonda Brisco, Assistant Professor/Curriculum Materials Librarian, Oklahoma State University*

I can't recommend Rosen's Teen Health & Wellness database strongly enough! We use it for our health classes, sociology and psychology classes—and the students use it for themselves. Student use for their own concerns and inquiry is VERY important, IMHO. The school nurse, counselors, psychologist, and other staff appreciate it, too, and often recommend it to parents as well as students.

—*Sara Kelly Johns, Library Media Specialist, Lake Placid Middle/Senior High School Library Media Center, NY*

It is extremely accessible and the information provided is "hip," up-to-date, and grounded in science and medicine. Students can also submit essays on issues that deal with pertinent issues such as death, suicide, and friendship. ... I really think that, by including student voices in the database, the purely fact-driven database model recedes and a more interactive, end-user interface is created. ... Many of our regional school library systems have picked up the database and have seen great responses from teaching staff, librarians, and students.

—*Charles O'Bryan, School Library System, Director, DCMO BOCES, NY*

I can wholeheartedly endorse Teen Health & Wellness. We have had a lot of success using it here in Spring Branch ISD. The counselors love that they have a site where they can send teenagers to privately look up sensitive information and get answers to questions that they are too embarrassed/shy to ask about!

—*Liz Philippi, Library Systems Administrator, Spring Branch Independent School District, TX*

We love Teen Health & Wellness and, in addition to using it with our health classes, have used it with English and psychology students. It is also utilized by several of our counselors. Check it out!

—*Harlene Rosenberg, Supervisor, Instructional Media Center, Hunterdon Central Regional High School, NJ*

ABOUT TEEN HEALTH & WELLNESS

The NEW Teen Health & Wellness: Real Life, Real Answers—the award-winning, critically acclaimed online resource—provides middle school and high school students with nonjudgmental, straightforward, standards-aligned, curricular and self-help support. Topics include diseases, drugs, alcohol, nutrition, mental health, suicide, bullying, green living, financial literacy, and more.

New for Fall 2010, Teen Health & Wellness is even more robust, more interactive, and simply more “amazing.” The database now speaks your language—over 50 of them—with instant article translation. Social bookmarking allows users to connect friends and family to balanced, sensitive, and caring information. Video and personalized health calculators add a new level of interactivity. Plus, over 50 new articles on subjects ranging from the teen brain to foster care to being a GLBT teen guarantee that, when teens have questions, Teen Health & Wellness has the answer.
