Rosen LevelUp Reviews/Testimonials

"Rosen's LevelUp is a smooth, reader-friendly eBook platform...coupled with a broad set of instructional tools for teachers and utilities for classroom management and data reporting." –*School Library Journal*

"As an elementary principal, I look for programs and platforms that can be deployed quickly and effectively so that my teachers and students can jump right in. This has certainly been the case with **Rosen LevelUp**. It's great to see how much the kids love reading on the platform, and the interactive phonics books with their strong scope and sequence have proved a huge added benefit. The tools incorporated in the program have helped my students become successful and more confident readers. The teachers are able to track student progress and get instant feedback on student reading levels and comprehension. Our school's Title I Program has incorporated **Rosen LevelUp** into their curriculum with great success."

–*Justin Fye, Principal of Philipsburg Elementary School, PA*

"Having Rosen Classroom's Customer Success team come in and work with our staff on **Rosen LevelUp** has moved our staff from just using the program to making a difference in our students and staff."

–*Tyson Eslinger, Superintendent of Schools, USD 216, Deerfield, KS*

"**Rosen LevelUp** is the perfect solution for districts struggling with meeting literacy goals by the end of third grade. The wide range of authentic literature creates student interest; the actor-generated audio provides models of fluency; the ease of navigation allows self-direction by even these emergent readers—all of which is vital in this time of distance learning. But the most impressive aspect of the program is that the software not only indicates a student's weakness with respect to a specific state skill or standard, but it also closes the circle by providing a solution: a just-right selection of titles that allows review and practice. **Rosen LevelUp** is the next generation of adaptive reading platforms."

–*Liz Philippi, School Program Coordinator, Texas State Library*

"As schools and education departments embrace the importance of play-based learning in primary grades, it is wonderful to have products like **Rosen's LevelUp** that have already integrated games, open-ended play, and other aspects of kid-friendly fun into a seriously powerful reading program that teachers love."

–*Christopher Harris, Ed.D., Director of the School Library System for the Genesee Valley BOCES, NY*

Foundational Literacy

"**Rosen LevelUp** is a powerful adaptive literacy platform that allows teachers to easily sort texts to align to their instructional design as well as to their students' instructional needs. It is the ability to flex the resource and to use it across the gradual release within the literacy block that makes it so special. The benefit to the student is immediate, as texts are accessible in various formats and can be utilized in any classroom at any time. The ease of integration is a great strength of the platform."

—**Amber Molloy, Program Administrator of Literacy of Montgomery County, PA**

"As a Reading Specialist in a K-2 building, my district was in search of a program that offered Phonics, Phonemic Awareness, and Reading practice that would be engaging for our early readers. Well, **Rosen LevelUp** provided that. The program was student and teacher friendly. I received positive feedback from both parents and students. I am so happy that my district purchased this program."

"**Rosen LevelUp**'s Customer Success team was great to work with. I had several questions, and they were always available, once even after hours. The professional development was broken into understandable chunks, making it easy to assimilate. Customer Success answered all the questions we had and helped us learn how to implement LevelUp."

—**Stacey Hall, Reading Specialist, Ferndale Public Schools, MI**

"Sail away in reading as you Level Up! Imagine having books on level for students, individualized skills to help students succeed, supportive consultants, and printable resources for any ELA lesson, all at your fingertips. Oh wait...Rosen has it all for you! Students are engaged and excited to read!"

—**Elementary Teachers at Deerfield Elementary USD 216, KS**

"What impresses me most about **Rosen LevelUp** is the breadth of age-appropriate authentic content for my emerging readers. For my students to have immediate access to 2,400 quality titles is amazing. Excellent value for the price of the subscription."

—**Susan Anderson, Elementary Librarian, York Suburban School District, PA**

"**Rosen LevelUp** is a user-friendly adaptive reading platform of diverse materials that is full of books with authentic stories, wonderful illustrations, and bright colors designed to engage even the most reluctant reader. There is quite a mix of fiction and nonfiction titles, with a plethora of authors and unique titles. The narration on the lower level books provides an opportunity for the learners to hear the words in context and follow along without distraction or frustration. This interaction helps build confidence in reading and encourages students to move at a pace tailored to their individual needs while building skills. The ancillary teacher resources and the capability of printing the materials create an exceptional one-stop teaching and learning experience for both teacher and student!"

—**Ellen and Bruce Eisenberg, The Professional Institute for Instructional Coaching**
