

# Reading Comprehension Quiz Skill Categories

Reading comprehension skills are critical to understanding texts and fundamental to reading and academic success. In LevelUp, multiple choice comprehension skill quiz questions are included at the end of most texts, and a constructed response task is included for most texts 340L and higher. Each quiz question is linked to a state standard and a reading skill category, and the results are included in the educator “Reports” dashboard. The two tables below provide each assessed skill and its description.
