Make a Match!

Understanding how things are the same and how they are different is a foundational skill for preschoolers and kindergarteners. Further, when they can match things that are the same, they are making connections to math as well as the world around them! In this adorable beginning reader set, readers will find things that match around their house, in their classrooms, and in the park, as well as recognize and match colors, patterns, and shapes. Each book encourages reading independently with accessible language and relatable examples.

LEVELED READER ANIMALS

Electric Animals

There are many animals that use electricity in the wild! Some, like the electric eel and the electric catfish, can create their own electricity for hunting and protecting themselves. Others, like the echidna or the platypus, use special receptors to sense the electricity created by the muscles of other animals. Through approachable text, young readers will love discovering the many ways animals use electricity. With full-color photographs of these animals in their wild homes, readers will deepen their understanding of how these animals survive.

A Look at Money Matters

Understanding money—how to make it, how to save it, and how to spend it wisely—is essential. Unfortunately, money concepts are often not explained, or not explained well, to young people. This invaluable set breaks down seemingly complex topics of finance into easy-to-understand concepts. Familiar but perhaps daunting terms such as budgets, stocks, and debt—so often used in the news—will become clear to readers through the accessible explanations in these volumes. Real-world photographs and well-crafted graphic organizers aid readers in understanding these important ideas as well.
